

PUBLICATION OF UNEXAMINED UTILITY MODEL APPLICATION

UM Publication No. Hei-04-76243

Title of the Invention: Heat Shielding Member for a Battery

Utility Model Application Number: Hei-02-120173

Utility Model Publication Number: Hei-04-076243

Publication Date: July 3, 1992

Inventor(s): Seiji Anzai et al.

Applicant(s): MATSUSHITA ELECTRIC INDUSTRIAL CO., LTD.

Filing Date: November 15, 1990

---

Claim

A heat shielding member for a battery to be mounted on an outer circumference of a battery, said heat shielding member comprising two resin plates and plural inner partition walls disposed therebetween in vertical and parallel orientations, and an insulating plate made of resin foam, synthetic resin fiber, foam rubber or glass fiber, wherein said insulating board is mounted on at least one side of said resin plates, and said shielding member is provided at least on a lateral side and a part of a top side, of said battery.

1: resin plates

2: inner partition walls

3: air layer

4: insulating plate

5: shielding member for a battery
